Alan Sloane Collection

[Mathematical Dystrophy Association -- "Celebrity Spots"]

PHYSICAL OBJECT
IDENTIFIER: sloane_0071
MEDIA TYPE: Sound
FORMAT: Lacquer disc/acetate

ANNOTATION
Mathematical Dystrophy Association. "Celebrity Spots" for the Mathematical Dystrophy Association. (Nont), Peter Lind Hayes & Mary Healy in "Take Down the Stars" (back). "This is an example of what I have referred to as 'looking for the ones that are contributing one's professional services without charging a fee. The title is extremely interesting in the light of later use of the same 'starp' metaphor. In TEACHER, TEACHER, Fenol, the retarded boy, reaches into the sky, saying 'Stars, stars...'' In fact, a working title was 'To Touch the Stars.' That's the theme; if my memory serves me well, I Take Down the Stars. I think I have used the 'star metaphor elsewhere. It all started with my posting little stars on the ceiling over my son's bed...and when I put him to bed, his usual was to touch the stars." [typewritten note accompanying disc]
